MEET ICELAND'S ENTREPRENEURS

In 2008 the Icelandic economy experienced a meltdown with the three largest banks imploded under the weight of debt more than 6 times the GDP. Out of the struggle resulted an **attitude to base the economy on creating** instead of financing, and a case study for entrepreneurship was born.

Together with **Bala Kamallakharan** one of the leading entrepreneurs and **founder of the Startup Iceland** conference, we organize an informal evening to find out more about this interesting economy and meet with the Icelandic community.

Obviously we will also include **a local company visit** to our program.
